

This term, the children in UKS2 will be learning about *Global Warming* in the geography-based ‘Global Warming’ topic.

This topic explores the concept of sustainability and eco-literacy, before focussing on the global environmental issues of waste and pollution.

Below are some optional activities to help you learn even more and show your creativity. Please bring any completed work to school so we can celebrate your efforts.

Write a letter persuading an unwilling neighbour to start recycling their waste.

Make a bird feeder using something from your recycle bin e.g a plastic container.

Use recycled products to make a sculpture, musical instrument or a collage.

Organise and hold a jumble sale to make money for a local ‘green’ cause.

Write or film a news report about:

- A flood
- A heatwave
- Forest fires
- Melting ice caps

Plant seeds or herbs and keep a growth diary with:

- Measurements
- Drawings
- Weather note
